

Carefully cut along the dashed lines, then fold along the solid lines.
Use a ruler or the edge of a table to fold straight edges.
Use a glue stick on the marked glue tab to hold your character together.

ASSEMBLING YOUR CUSTOM CHARACTER

Using a glue stick, glue the insides of the arms where they attach to the body, then place them on your character.

Crease along all the fold lines and attach the glued tab to the opposite panel.

Fold the top flaps inward.

Place your assembled character over a HEXBUG nano® and Box Sumo base.
